Music Composition	Self Employed	Compose music ranging from Hip Hop to Pop	2007

General

Technically I am a professional football player who always had a love for the arts and never set it aside during my 14 year football career.

In doing so, I have taught myself several aspects of music production, composition and performance in my free time. I would hope the level of quality the music I have released up to date can give people an idea of how driven, enthusiastic and determined I am to improve on a day to day basis in the field of music and performing arts.

I started off only composing Hip Hop related music and have go on to expand my capabilities to other genres including Pop, Rock, Americana and even dabbling into Country. Songs that I have written have been heard by the former producer and publisher of Die Toten Hosen and are

now in the works to be proposed to appropriate artists in the European music industry. Beyond that, I have never been shy in front of camera and have even written story boards, shot and edited music video as well as assisted others who performed those services for me in order to learn from them and improve my own capabilities. From there, naturally acting is something I would love to get involved in as well. Everything that has to do with Film has always interested me as much as music has and given the slightest opportunity to be involved at any level would be all I need to get moving and soak up all the knowledge I possibly to improve as quickly as possible. Singing and Rapping are perhaps my strongest stage performance attributes but having been a professional football player for so long, working and performing under scrutiny and high pressure is something I'm proud to say I have gotten accustomed to and I would even say have come to enjoy the thrill.

I would urge you to look past the fact that I may not have conventional backgrounds of employees you may be used to, and give me the chance to showcase and impress you with my natural talents.

Hobbies ·

I play Football professionally and pretty much all sports at competitive levels including Basketball, American Football, Volleyball even Tennis. Now, in my spare time, I help coach a local amateur football team in my home town of Bruttig Fankel on the Mosel by Cochem in Germany.

I also love to collect currency from all the countries I have visited all over the world for the last 15 years now.

Characteristics ·

I have 3 tattoos, 1 on my chest (a cross), 1 on my shoulder (outline of the African continent) and 1 inside my bicep (Greek writing of the passage "John: 3-16") I have a scar on the back of my left shoulder from an operation to take out a growth I had on the location
