In my life I worked as an employee in several positions: waitress, clerk, worker, kitchen manager, shop assistance, tour leader ...in Italy and UK.

Since I was a child I've always had a strong, public oriented character. Several of my relatives had commercial activities, therefore I was present in there (shops) playing my role of owner and seller for fun.

Together with this trait I loved speaking and expressing myself in all things artistic: singing, dancing, acting, painting, photographing for my family and also being an active part in some school plays and shows.

I attended acting/cabaret/stilts courses, playing/singing in dramatic & comic theatrical performances, such as The Investigation by Peter Weiss and a funny version of Cinderella.

Nowadays in my freelance business focused on Self Mastery through Mentorship & Art I do appear in my pre-recorded videos and live streams. I love creating and editing videos and audios, to use my image and my voice.

Years ago when I started I was used to write a plot and to record many times before to get THE right content. Today I simply decide the topic to share, I focus on it enlightening its several aspects and then I click the rec/live button! I particularly enjoy lives as I can connect to the audience.

My passions are primarily artistic and oriented towards the application of personal power in everything we experience. Singing, painting, crocheting, travelling, cooking, tarot, tango, tantra, spa are my favorites.
