Profile

I am an emerging actor, guitarist and aerospace engineer based in Vienna. Growing up in Tabriz, film and music opened a window onto a wider world. I am drawn to exploring characters through emotion, observation and movement, with interests spanning drama, comedy, action and historical productions.

Performance and presentation

On-camera presenter | TU Wien research project. Presented an FFG-supported project in English for a departmental introduction video. Developed and delivered the explanation in my own words without a supplied script. Watch presentation on YouTube

Guitar performance. Approximately 17 years of playing; featured solo guitarist in a music-school ensemble with live performance experience.

Early stage experience. School theatre performances, including leading roles.

Languages

Azerbaijani Native | Persian Native | English Fluent
German B2+; comfortable performing prepared dialogue

Music and movement

Music. Classical and electric guitar; standard notation and tablature; prepared repertoire and improvisation over backing tracks.

Regular physical practice. Yoga, including Vinyasa, Yin and Ashtanga; mobility, calisthenics, animal-flow-style movement and swimming, including sea swimming.

Previous sports training. Jiu-jitsu (approximately 3 years accumulated), wrestling, boxing, kickboxing and Muay Thai (approximately 3-4 years combined striking training); recreational practice.

Professional and practical skills

Aviation development and flight-test engineering: aircraft flight-data analysis and software development. Familiar with aviation terminology and military aviation history.
Driving: Austrian category B licence; manual and automatic vehicles. Experience driving large campervans up to 3.5 tonnes and approximately 7 metres long on multi-week road trips.

Education

MSc Aerospace Engineering. University of Bologna, Italy | 2016-2019

BSc Aerospace Engineering. Amirkabir University of Technology (Tehran Polytechnic), Iran | 2010-2014
