📅 WORK EXPERIENCE

📅 09/2021 – PRESENT 📍 THE NETHERLANDS

Multiple roles Real life Gaming

My own company where I aim to be as flexible as possible in media and entertainment. As an actor, producer and journalist I work freelance on various projects.

My roles:

- Yuri Koblenko - a person who is wrongfully imprisoned. In this immersive online theatre play, real-life players are encouraged to help Yuri (me) in order to gain his freedom. Players choose the actions of Yuri. While doing this project, I was required to stay in character throughout the 30-minute game. Improvisation skills were key in order to make the character come to life as much as possible.
- Kata van Arkel - a journalist who also studied law. In this immersive theatre play, real-life players need to decide how to escape the 'Kruisberg' penitentiary. My role was that of a security guard, who mid game decides to help people escape. In doing so, Kata's emotions change as the 3-hour game progresses.
