About me

Before entering the Academy, I had no prior experience with acting. I was first and foremost an avid book reader, geek and horse rider. I first enrolled into the Department of Biology's Bachelor program, which gave me a great appreciation for a world I ultimately found was not my calling.

After finishing my theatre education, I worked on various projects ranging from street improv theatre and film, to teaching children & adult drama classes. At the moment, I wish to expand my breadth of knowledge, as well as gain more experience in front of the camera and on the stage.

Acting Credits
